

The background of the entire page is a light yellow-green color with several butterflies scattered across it. The butterflies are in various colors, including orange, blue, and brown, and are shown in different poses, some as if they are flying or resting. The text is centered on the page, and the overall tone is warm and appreciative.

Dear transplant nurse,

I love transplant nurses! Especially the wonderful ones that took such good care of me while I waited for a new heart and for the wonderful ones that put up with my grumpiness after I received my new heart! ***Transplant nurses are angels!*** None of them minded answering our questions. They were always quick to be kind and reassuring...we also appreciated their honesty!

I live on Kodiak Island, Alaska and had to move to Seattle (temporarily) while we waited for a heart for me. I was in and out of UW for four months, before my Lord blessed me with another chance at life. Now, six years out, believe me when I say....

**TRANSPLANT NURSES ROCK!!!**
